

### Packaging

1 set = 60 units

### DIMENSIONS

- Tube diameter : Ø32 mm
- Number of bars : 14
- Bar thickness : Ø16 mm
- Bar spacing : 107 mm
- Blank nameplate for logo : 120 x 100 mm

### CHARACTERISTICS

The hot-dip galvanized Drang Fence is impervious to corrosion and therefore guarantees a long service life. The drang fences feature 2 mounting hooks and 4 asymmetrical feet for added stability. The crowd barriers are ideal for multiple use for fencing off construction sites, events and other occasions. In addition, the crowd barriers are easy to stack one after another, so the barriers take up little space.

Tolerance of +/- 10% to the stated sizes.
